C-7.1.4 Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic diversity and Sensitization of students and employees to the constitutional obligations: values, rights, duties and responsibilities of citizens

Creating an inclusive environment that fosters tolerance, harmony, and respect for diversity is a fundamental goal at East Point College of Engineering and Technology (EPCET). The institution's efforts are aimed at embracing and celebrating cultural, regional, linguistic, communal, and socioeconomic diversity, while sensitizing students and employees to their constitutional obligations, values, rights, duties, and responsibilities as citizens.

Cultural and Regional Inclusivity:

EPCET recognizes the richness brought by cultural and regional diversity. The institution promotes cultural exchanges, celebrations of regional festivals such as Onam, Ganesha Festival and showcases of traditional arts and performances. These initiatives not only celebrate diversity but also educate students and staff about different cultures, fostering mutual respect and understanding.

Socioeconomic Inclusivity:

The institution is committed to providing equal opportunities to students from diverse socioeconomic backgrounds. Scholarships, financial aid programs, and fee concessions are offered to ensure that financial constraints do not hinder access to education. Additionally, career counseling and skill development programs are tailored to meet the needs of students from various socioeconomic strata.

Sensitization to Constitutional Obligations:

Students and employees are sensitized to their constitutional obligations, rights, duties, and responsibilities through curriculum courses such as Indian Constitution and Professional Ethics and discussions on citizenship education. These sessions highlight the importance of upholding democratic principles, respecting fundamental rights, and promoting social justice within the campus community and beyond.

Karnataka, India.

Values and Responsibilities:

EPCET instills values of integrity, empathy, and social responsibility among students and staff through ethics workshops, leadership development programs, and community service initiatives. These activities aim to cultivate responsible citizenship and prepare students to contribute positively to society.

Employee Sensitization:

Faculty and staff members undergo training programs on diversity management, inclusive teaching practices, and conflict resolution. This ensures that they are equipped to create an inclusive and supportive learning environment that respects and values the contributions of every individual.

East Point College of Engineering and Technology's institutional efforts in promoting an inclusive environment reflect its commitment to nurturing a community where diversity is celebrated, constitutional values are upheld, and every member is empowered to thrive and contribute meaningfully to a multicultural society.
