Name of Faculties conducting the Activity: Dr. Chandrappa D.N & Prof. Praveen Kumar K C

Objectives:

The main objective of this International Online webinar is to understand how the hackers will hack our all personal information by using different soft ware. How we will protect our personal information by such hackers.

Activity information:

Department of ECE in Collaboration with East Point IEEE Student Branch organized a International Online Webinar series session-1 on "Cyber Safety" for students and Faculty. This sessions was conducted by an cyber security expert Dr. Pritam G shah ,working as lecturer at MIT, Sydney, Australia for post graduate students. In webinar, Dr Chandrappa D.N sir gave the welcome speech followed by principal sir Dr. Prakash S. he addressed the students and also warmly welcome the webinar resource person Dr.Pritam G Shah. After that our beloved H.O.D Dr. Yogesh G.S sir. Addressed the students he gave the information about Cyber Safety and its importance. Then Our resource person Dr.Pritam G Shah gave in depth, detailed information about Cyber Safety with demonstration, how hacking will happen in internet. This session followed by question and answer. Some of the faculties and students have raises the questions to resource and all questions had solved with demonstration by resource. This webinar ended with vote of thanks, given by Prof. Praveen Kumar K C.

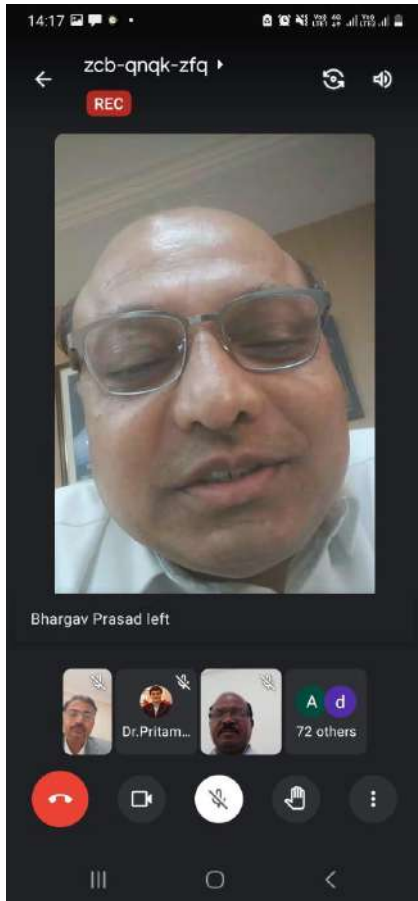

Outcomes:

From this International webinar students have got an overview of Actual hacking, if unknown links are used by people. And also they understood what are the challenges to protect our personal information by Hacker.
