The Department of Computer Science at EPCET celebrated Teacher's Day with great enthusiasm and warmth on 5th September, 2023. Teacher's Day is an annual event dedicated to honoring and appreciating the invaluable contributions of our educators. It provides an opportunity for students to express their gratitude to their teachers and celebrate the role of educators in shaping their lives.

The Teacher's Day celebration was a collaborative effort of students, faculty, and staff of the Computer Science Department. The planning committee was formed well in advance, consisting of both students and faculty members, to ensure a well-organized and memorable event. Meetings were held regularly to brainstorm ideas and allocate responsibilities.

The celebration began with a warm welcome for all teachers, where students greeted them with flowers and heartfelt messages. The main event took place in the department's AI-ML lab, which was beautifully decorated with banners and posters expressing appreciation for our teachers.

During Teacher's Day celebrations, teachers participated in various games and activities that are organized by students to add a touch of fun and entertainment to the event. These games were meant to relax the teachers and create a joyful atmosphere. Here are some common games that teachers played during Teacher's Day celebrations:
Musical Chairs
Dumb Charades
Memory game
Guess the teacher etc.
