<p>The Department arranged for its students of IV semester both the sections to make a one-day visit to Doordarshan on May 29, 2024. Accompanying faculty included Dr Yogesh G S, Prof Nilu Mishra & Prof S M Jaanaki. The students were shown the studios and were given explanations for its way of functioning and designs. Industrial visits are a vital part of any professional course where students are exposed industries of their field. Doordarshan, for any ECE student, would be a prominent area of interest because it was the first channel of Indian television and hence have seen the evolution of Indian Television broadcasting. This visit has been very enlightening. The students were divided into four groups, each guided by a representative of DD Mr satish K. The students were taken around the Art Station Room, PVR Room, Studio and the Editing Room. They were briefly explained how the videos are shot, synchronized by audio, edited, uplinked to the satellite and downlinked and distributed as programmes to the houses of viewers. The machines and it's technicalities in each room were discussed concisely. The students spent 3-4 hours studying and assimilating the valuable information.</p>
