Venue	Online			
Duration	<u>1</u> Hrs	From:	10:30AM	To: 12.00PM
Program Objective	The objective of conducting a tech talk on OpenCV for engineering students is to provide them with a comprehensive understanding of this powerful open-source computer vision library, equipping them with the skills to implement and innovate in areas such as image processing, machine learning, and artificial intelligence.			
<p>The tech talk on OpenCV aims to familiarize engineering students with the capabilities of this open-source computer vision library, showcasing its practical applications and hands-on techniques. It seeks to bridge the gap between theory and practice, inspiring students to use OpenCV in their projects and future careers while deepening their interest in computer vision.</p>
