Program Objective	To enhance foundational knowledge in English grammar and computer basics while fostering active participation and comprehension among government school students.				
<p>Students from the CSE department of EPCET conducted interactive classes on English Grammar and Computer Basics for government school students of both English and Kannada mediums. The session covered key topics, including the classification of nouns (common, proper, abstract, and collective) and types of pronouns (personal, possessive, and reflexive). In the Computer Basics section, students explored essential computer components such as the CPU, monitor, keyboard, and storage devices, understanding their functions. A quiz conducted at the end showcased impressive comprehension, with participants answering accurately. The session was engaging and effective, fostering confidence and enthusiasm among the school students for future lessons.</p>
