| **Program Objective** | The session was aimed at creating a community service for students that can be incredibly rewarding and impactful. |
|---|---|

The Department of Computer Science and Engineering at EPCET organized a session on "Community Service Project - Literacy for All" on 20th November 2024. The session was aimed at creating a community service for students that can be incredibly rewarding and impactful. A community service project involves organizing volunteers and resources to address specific needs within a community, aiming to improve the quality of life for its member.

**Session Overview**

The session was structured to include both theoretical explanations ensuring an engaging learning experience for all attendees.

**Topics Covered:**
- Introduction to MS Word interface.
- Basic functions like creating a document, saving, and formatting text.
- Practical demonstration of typing and formatting simple text.

**Science Experiment**: Candle and Water
• Objective: Demonstrated the rise in water level when a candle burns under an inverted glass.
• Observation: The flame consumes oxygen, creating a vacuum that causes water to rise inside the glass.
• Learning Outcome: Understanding the relationship between oxygen, combustion, and air pressure.

**English Session**
Activities:
- Practiced phonetics to improve pronunciation.
- Focused on spelling exercises for commonly used words.
- Conducted a reading activity to enhance fluency and comprehension. *Learning Outcome: Improved English communication skills through phonetics, spelling, and reading practice.

**Computer Basics: MS Word**
Learning Outcome: Gained basic knowledge of MS Word operations for document creation and editing.

**Conclusion**
The session was interactive and engaging, helping students develop practical knowledge in

science, English, and computer basics.
