AICTE ACTIVITY - 1

Activity Head:

Helping local schools to achieve good result and enhance their enrolment in Higher / Technical / Vocational Education.

Activity Details:

- **Venue & Duration:**

Initiated on 20th December 2022, this community outreach activity took place at Government Lower Primary School, Cheemsandra.

- **Objective:**

The primary goal of this extended initiative was to contribute to the educational well-being of the students at Government Lower Primary School, Cheemsandra.

1. **Stationery Distribution:**

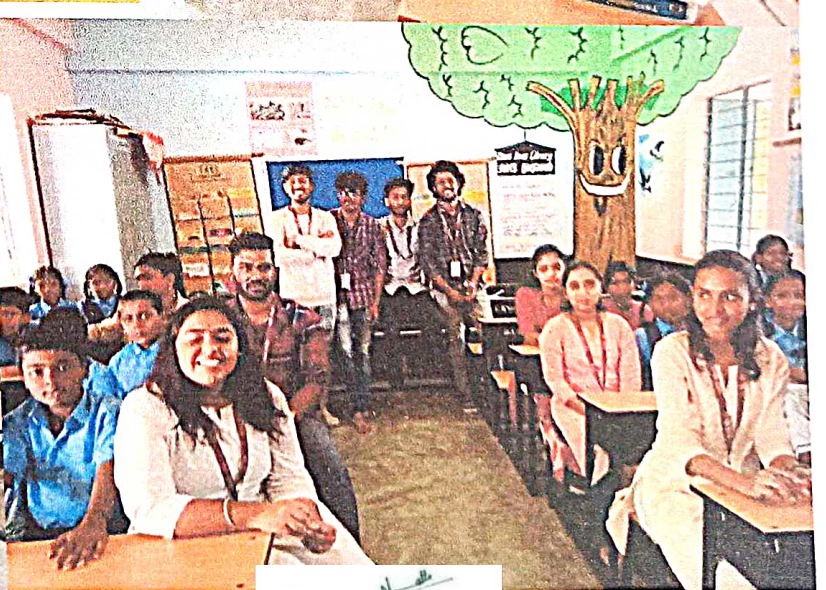

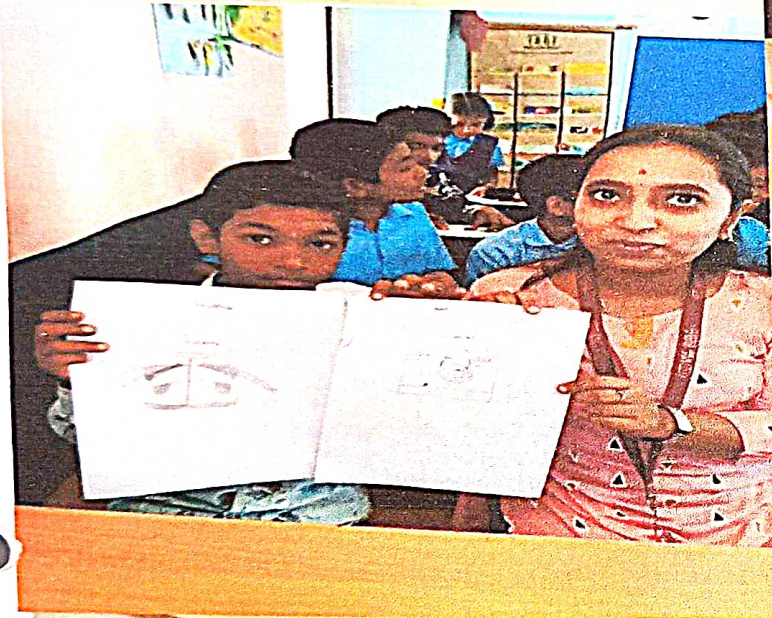

All students at the school were provided with essential stationeries, including notebooks, pens, pencils, scales, and erasers.

2. **Educational Sessions:**

Brief knowledge-sharing sessions covered various topics, including Road Safety, Environmental Awareness, Forest Conservation, Social Manners, Parts of Plants, Solar System, Paper crafting, Drawing, National Symbols of India, and Neighbourhood Places, and the Importance of Education.

- **Impact:**

This sustained effort aimed to create a lasting impact on the learning environment for the students, providing not only essential tools for education but also continuously imparting knowledge on diverse and important subjects.

GOVERNMENT LOWER PRIMARY SCHOOL
CHEEMSANDRA VIRGONAGAR POST

Ref.

Date: 20/12/22

To,

The Principal,

East Point College Of Engineering And Technology,

Inana Prabha, Virgonagar Post,

Bangalore-560049.

Respected Sir/Madam,

Subject : Regarding AICTE Activity.

Students from East Point College Of Engineering And Technology, currently pursuing Bachelor Of Engineering specialized in Computer Science Engineering 5th semester had visited our school from 6th December 2022 to 20th December 2022 on account of AICTE Activity. As the part of this activity all the students of our school were provided with stationeries and brief knowledge about road Safety, Environmental Awareness, Social Manners, Drawing and Craft, Co-Curricular activities.

On behalf of Government Lower Primary School, we appreciate all the following students who took this initiative.

Chaithanya H N - 1EP20CS018	M Shrusthi - 1EP20CS047
Harinath G - 1EP20CS031	Madhu D - 1EP20CS048
Karthik Kumar - 1EP20CS036	Mallesha Shasappa Nyamagoud - 1EP20CS049

Thanking you,

Headmistress

ACTIVITY-5

Description of Activity with Photographs

About Women Mensuration Awareness

Menstruation, or getting your period, is a normal and healthy part of life for most women. However, it's still stigmatized in many places, including the US. Some girls and women feel embarrassed or ashamed when they have to address their periods. It can even cause some people to avoid certain activities and miss out on important experiences.

Photos:

Outcome or Take a Ways from Activity

By this activity, I was able to convey the importance of awareness about the women mensuration and hygiene. Menstruation, or getting your period, is a normal and healthy part of life for most women. However, it's still stigmatized in many places, including the US. Some girls and women feel embarrassed or ashamed when they have to address their periods. Survey was conducted in school to promote and create awareness about menstruation and hygiene.

CONCLUSION

We planned and executed AICTE activity in Karnataka public school, Jeevan bema nagar with the help of all our social ambassadors.

Our main objective was to explain the awareness about the women mensuration and hygiene. A Survey was conducted in school to promote and create awareness about menstruation and hygiene.

On behalf we thank Government primary school teachers, our social ambassadors and volunteers for coordinating and helping us in making this event a grand success.

ACTIVITY-4

Description of Activity with Photographs

About Garbage Disposal

The garbage disposal is mounted to the underside of a sink and is designed to collect solid food waste in a grinding chamber. When you turn on the disposal, a spinning disc, or impeller plate, turns rapidly, forcing the food waste against the outer wall of the grinding chamber. This pulverizes the food into tiny bits, which then get washed by water through holes in the chamber wall. While disposals do have two blunt metal "teeth," called impellers, on the impeller plate, they do not have sharp blades, as is commonly believed.

Photos:

EVENT REPORT

BLOOD DONATION (2022-2023)

Institution	East Point College of Engineering and Technology				
Department	Electronics and Communication Engineering				
Event Type/Theme	NSS Activity				
Event Title	Blood Donation.				
Date	19/03/2023				
Venue	EAST POINT HOSPITAL				
Duration	1days/8Hrs	From:	19/03/2023	To:	19/03/2023
Program Description	<p>A Blood donation camp was organized by our Youth Red Cross Unit and NSS Unit in collaboration with Karnataka Blood Bank, Bangalore through which 75 units of blood was donated by both students and the staff members of our College. It is a way of East Point College of Engineering and Technology gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our Youth Red Cross Unit and NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.</p>

CAREER GUIDANCE FOR STUDENTS AND DISTRIBUTION OF STATIONARY MATERIALS

As part of my fourth activity under AICTE Activity Point Programme, I along with my friends teamed up and had visited **GIPS Chintamani (taluk), Chikkabalapur (district), Doddaganjur (post)**. We provided career guidance to the students, providing career guidance to students in rural schools is essential for their personal, educational, and professional development. It can provide equal opportunities, informed decision-making, real-world exposure, bridge the urban-rural divide, and contribute to personal and professional development. We distributed stationary materials to students which is the basic need of a student. Distributing stationary materials to rural schools is essential for promoting equal access to education, improving literacy rates, boosting attendance, and promoting a culture of learning. It can contribute to the educational, social, and economic development of rural communities by providing the necessary tools for students to participate actively in their education.

EVENT REPORT
INTERNATIONALYOGADAY

Institution	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	DEPARTMENT OF CIVIL ENGINEERING				
Event Type/Theme	YOGA FOR GOOD HEALTH				
Event Title	NSS ACTIVITY				
Date	21 ST JUNE2023				
Venue	MECHANICALBLOCK,EPCET				
Duration	2 HOURS	From:	930AM	To:	11 30 AM
Program Description					

On21ST June 2023, East Point College of Engineering and Technology celebrated the 9th International Yoga Day with great enthusiasm. The event attended by Principals, Department Heads and faculties of EPCET. All of whom demonstrated a keen interest in this ancient practice. The objective of this year’s celebration, themed “Yoga for **Vasudhaiva Kutumbakam,**” was to connect with a larger global community and promote the widespread adoption of yoga in every village in India.

The event commenced with a comprehensive introduction to Yoga Day by Dr Yogesh G S, Principal, EPCET. Prof Sreedhar of Civil Department and Suresh, Sports Director. The program kicked off with warm-up exercises, during which all faculty members actively participated. They guided through various sitting and standing asanas, with simultaneous explanations of their significance. The instructors emphasized the importance of incorporating yoga into daily life and maintaining harmony between the body and mind. The session lasted for over an hour, witnessing active participation and engagement from all attendees. The yoga instructors provided detailed explanations of each pose and offered guidance on precautions to take. Undoubtedly, it proved to be a successful event.

The celebration concluded with a token of appreciation by Dr Prakash S, SVP, EPGI, presented to the Yoga Instructors . The felicitation acknowledged their valuable presence and support.

Under the supervision of Sports Director Mr. Suresh, along with Prof Sreedhar, the InternationalYogaDaycelebrationsreachedatriumphantculmination.Theeventwas executedflawlessly,leavingalastingimpactonallparticipants.Voteofthankswas

Delivered by Prof Dr Maruthi G, expressing gratitude to all the individuals who contributed to the success of the program.

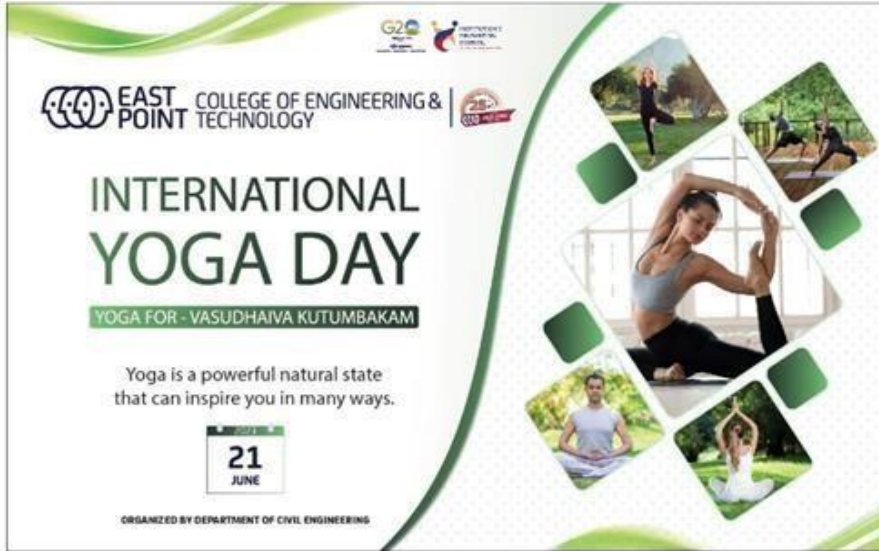

The 9th International Yoga Day at EPCET was an extraordinary event that brought together academic leaders, faculty members, and yoga enthusiasts. It successfully promoted the practice of yoga and its benefits, while also emphasizing its global significance. The event’s success can be attributed to the meticulous planning, active participation, and the dedication of the organizing team.

WORLD ENVIROMENT DAY 2023

Institution	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	CIVIL ENGINEERING				
Event Type/Theme	G20				
Event Title	World Environment Day 2023 Plant a tree Campaign				
Date	05/06/2023				
Venue	EPCET CAMPUS, BANGALORE				
Duration	<u>1</u> day	From:	1030AM	To:	12 30PM
Program Description					

Inauguration Ceremony: The event began with an inauguration ceremony, which was graced by Principal HOD's and faculty members. The Principal delivered a keynote address emphasizing the importance of environmental conservation and the role of educational institutions in promoting sustainable practices. A tree plantation drive was organized as a part of Environment Day. Principal, faculty and Students actively participated in planting saplings on the college campus. This activity aimed to contribute to the greening of the environment and promote the importance of trees in mitigating climate change. A special rally was also flagged off on the day with the aim of spreading awareness among the masses about the need to make earth green and beautiful. Students has prepared the posters and participated in rally with enthusiasm

ACTIVITY- 05

HELPING LOCALSCHOOLS TO ACHEIVE GOOD RESULT

AND ENHANCE THEIR ENROLLMENT IN HIGHHER EDUCATION

As part of my fifth activity under AICTE Activity Point Programme, I along with my friends teamed up and had visited Government Lower Primary School , Beechagondahalli [V],Kolar [T], Kolar [D] We interacted with students about career guidance and distributed stationary materials. Also have cleaned the school which helped the school to build up the infrastructure and a survey was done in Basavanna Nagar to promote and increase the admissions in government school. Stationery is the basic requirement for learning, without it, students are incapable of writing down the notes, drawing as well as taking tests. It is the basic need of any student learning art and crafts, without it, students' creativity will be restricted. Thus, Stationary is a part of inseparable and essential part of students' life.

Respected Sir / Madam,

Students from East Point College of Engineering and Technology, currently perusing Bachelor of Engineering specialized in Civil Engineering, 5* semester had visited our school from 2021-2022 on account of AICTE activity. As the part of this activity all the students of our school were provided with stationeries and brief knowledge about Road Safety, Environmental Awareness, Forest Conservation, Social Manners, Parts of Plants and Solar System.

On behalf of Government Lower Primary School, we appreciate all the following students who took this initiative.

Date	23-06-2021				
Venue	Mechanical block				
Duration	1day	From:	09:30 A.M	To:	03:00 P.M
Program Description					

A Blood donation camp was organized by our Youth Red Cross Unit and NSS Unit in collaboration with Karnataka Blood Bank, Bangalore through which 75 units of blood was donated by both students and the staff members of our College. It is a way of East Point College of Engineering and Technology gesture in bringing a ray of hope to contribute to the serious problems of acute shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our Youth Red Cross Unit and NSS volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

3. PLANTATION FOR MORE YIELD

DESCRIPTION OF ACTIVITY WITH PHOTOGRAPHS

Tree plantation means planting more trees in a planned way. It is very necessary for the environment. Many things have been created by god for the welfare of human beings. They have made related to nature. Nature helps us in many ways.

Fig: PLANTATION FOR MORE YIELD

OUTCOME OR TAKEWAY FROM THE ACTIVITY

It was a great experience spending time with children spreading awareness in the village and encouraging kids about the importance of plantation for more yield and we successfully achieved that by Survey and educating students and local about the importance of it.

Prof. M. V. Srinivasan V. Little
PRINCIPAL
EAST POINT COLLEGE OF
ENGINEERING & TECHNOLOGY
BANGALORE- 560 049.

CONCLUSION

Our main objective was to create awareness among the students about the Plantation for more yield. And we also worked on the objective by guiding the students and residents on the importance of these topics.

GLPS for complete support throughout the activity. We also thank our Social Ambassadors and Volunteers for coordinating and helping us in making this event a grand success.

4. AWARENESS ON SAVING WATER

DESCRIPTION OF ACTIVITY WITH PHOTOGRAPHS

Water is one of the most important substances on Earth. All living things need water to survive. Water is one of the most important natural resources on Earth. It is essential for all forms of life, and it is a key ingredient in many of the things we use on a daily basis. 4.

ACTIVITY 1

1. INTRODUCTION

ACTIVITY 1: SCHOOL ACTIVITY

AICTE Category: Helping local schools to achieve good results and enhance their enrolment in higher/technical/vocational education.

Activity Name: School activity

Activity Place: Government Higher Primary School Doddagattiganabbe Post, Hosakote Taluk, Bangalore Rural District.

Activity Date: 14/11/2022 to 30/11/2022

Number of Participants: 16

Local schools play a critical role in shaping the educational foundation of students within their communities. However, many schools face unique challenges that hinder their ability to achieve good academic results and attract students to pursue higher education or technical/vocational pathways. These challenges may include limited resources, inadequate infrastructure, lack of skilled teachers, and insufficient exposure to relevant opportunities and resources.

Recognizing the significance of quality education and its impact on individuals and communities, this initiative aims to provide comprehensive support to local schools. By addressing the specific needs of these schools, we can create an environment conducive to academic excellence and foster a culture of continuous learning and growth.

2. DESCRIPTION OF ACTIVITY WITH PHOTOGRAPHS

We visited and interacted with the students about achieve good results enhance their enrollment in higher education / career guidance and distributed stationary materials like books, pens, eraser, ruler, sharpener, table book and chocolates. We made the children get familiar with us through our interaction and also played games and spent our time joyously. And had a great experience spending my time with the kids and was happy in sharing my knowledge and donating for a social cause.

Fig 1: Giving Career Guidance to the students

Fig 2: Distributing stationaries to students

Fig 3: Group Photo with the Faculties

3. OUTCOMES

- Successfully completed our objectives which were determined.
- Convinced students with our study plans.
- Helped students to improve their communication skills,
- Received positive feedback from the faculties of the school and students

4. CONCLUSION

This activity helped us in improving our self-confidence and communication skills. It is our pleasure to serve the society one or other form, we are glad that we shared a zest of our knowledge to the students of the school we visited.

Detailed Report on the Activity

1. Executive Summary or Abstract:

AICTE (All India Council for Technical Education), Every regular student who is admitted to a 4 year degree program is required to earn 100 points in addition to academic grades for the completion of their degree program and to attain their certificate of completion.

AICTE advocates 300-400 hours of activity program for each degree student towards community service and allied activities. A student can opt for any activity within the stipulated list of activities as prescribed by the AICTE to earn their activity points.

Every student is supposed to earn 20 points in each semester, serving for a duration of at least two weeks. These activities can spread over duration 4 years as per convenience.

2. Introduction

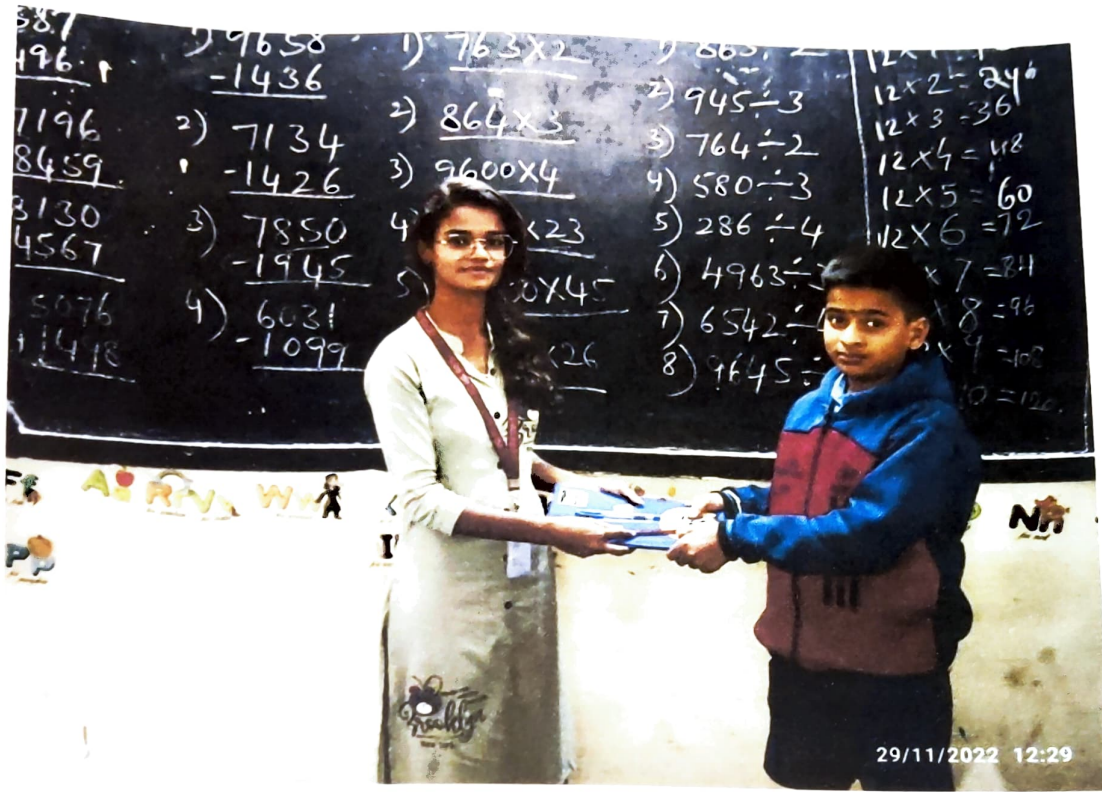

Government Primary school, Kodigehalli

GOVERNMENT PRIMARY SCHOOL, CHUNCHADENALLI is located in post Kolar district of Karnataka. The school consists of Grades from 3 to 7. The school is Co-educational and it doesn't have an attached pre-primary sections. The school is N/A in nature and is not using school building as a shift-school. Kannada is the medium of instructions in this school. This school is approachable by all-weather road. In this school academic session starts in April. The school has Private building. It has got 4 classrooms for instructional purposes. All the classrooms are in good condition. It has 2 other rooms for nonteaching activities. The school has a separate room for Head master/Teacher. The school has Hedges boundary wall. The school has electric connection. The source of drinking water in the school is Tap Water and it is functional. The school has 4 boys toilet and it is functional. And 2 girls toilet and it is functional. The school has a playground. The school has a library and has 2677 books in its library. The school does not need ramp for disabled children to access classrooms. The school has no computers for teaching and learning purposes. The school is not having a computer aided learning lab. The school is Provided but not prepared in School Premises providing mid- day meal.

3. Description of activity with photographs

As part of All India Council for Technical Education (AICTE) activity point Programme, the students of VII Sem visited Chunchadenalli village to contribute to Distribution of Books.

Prof. M. V. Srinivasan V. Letta
PRINCIPAL
EAST POINT COLLEGE OF
ENGINEERING & TECHNOLOGY
BANGALORE-560 049.

4. Conclusion

Our main objective was to teach basics of computer to students, and we successfully achieved that by Survey and educating students about the importance of it. To ensure that all students acquire the key skill of computer literacy during their basic education period.

We heartily thank the staff and the head master of Government primary school, Kodigehalli for their honourable presence and inspiring words. Also for their complete support throughout the activity.

5. Outcome or Takeaways from the activity

It was a great experience spending time with children spreading awareness in the village and encouraging kids by providing stationary to them create environmental awareness among students, and we successfully achieved that by Survey and educating students and local about the importance of it and promoting admissions in government schools by guiding the residents about the significance of educating their children and thereby assisting their young ones to have a bright and successful future.

Respected sir,

Subject: Regarding AICTE activity

Students from East Point College of Engineering and Technology currently pursuing B.E. specialized in Information Science and engineering, 7th semester had visited our school from 9-11-2022 to 24-11-2022 on account of AICTE activity. As the part of this activity all the students of our school were provided with demonstrations and shared a brief knowledge about the importance of education, rising technology, awareness of cleanliness, importance of women empowerment and water conservation.

On behalf of Gov. Urdu higher primary school we appreciate all the students who took this initiative.

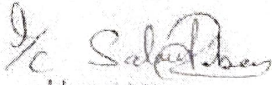

Thank you,

Yours sincerely,

Head Mistress

Duration	3 HOURS	From:	8 AM	To:	11 AM
Program Description					

A Cleaning drive was organized by NSS unit of Department of Civil Engineering at the premises of Ghati Subramanaya temple on 11 April 2022.

It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases.

Following this, students of 6th sem of the Civil Engineering branch under the guidance of HOD Dr Nagaraj Sitaram actively participated in the drive. The garbage was collected and disposed away. The plastics and used water bottles were also segregated. Students have encouraged community people to join in swachhata activity.

EVENT REPORT

World Environment Day 2020

Institution	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	Department of Mechanical Engineering				
Event Type / Theme	Cleaning the Road at Bidarahalli				
Event Title	World Environment Day 2020				
Date	05/06/2020				
Venue	Bidarahalli Junction				
Duration	3 hrs.	From:	12:00 PM	To:	3:00 PM
Program Description	<p>First, we started with a plan that had to be executed in order to make the people understand the importance of the term "SWACHH BHARATH". Our main goal was to spread the message of keeping our surroundings clean in order to stay hygienic and healthy. This act included to clear the wastes which surrounded our college campus area. We Carried few banners and other requirements with us. We could clear noticeable amount of area for that particular day. We instructed all of them to maintain 2 separate bins for Dry and wet wastes. We placed few sign boards at the maximum targeted places, which warned people to throw the wastes only in the bin and to keep the surroundings clean. We then dispersed after the completion of final cleaning process in our college campus. At the end, we thought it was a success and hoped that we had at least changed few of the minds.</p>

VACCINATION DRIVE

Institution	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	CIVIL ENGINEERING				
Event Type /Theme	NSS - COVID VACCINATION DRIVE				
Event Title	VACCINATION DRIVE				
Date	1/7/2021 TO 3/7/2021				
Venue	EAST POINT PHARMACY BLOCK				
Duration	3 DAYS	From:	1/7/2021	To:	3/7/2021
Program Description					

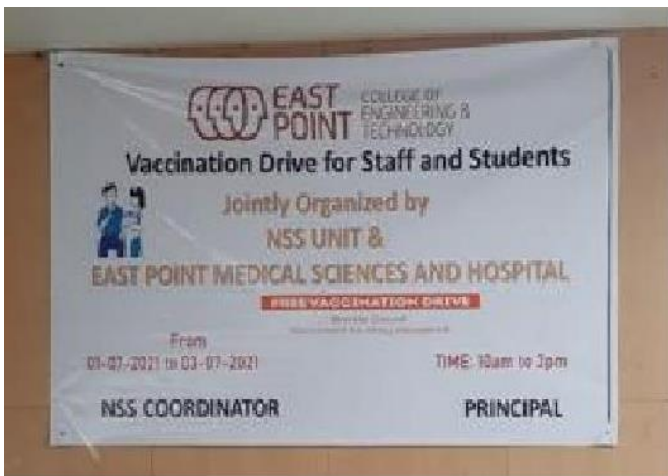

The Department of Civil Engineering, EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY has initiated Vaccination for people living in Bidarahalli and Hirandahalli, from 01/07/2021 to 03/07/2021. The people were taken batchwise for the 1st dose of covishield vaccine and huge response was observed. 1st day 100 numbers were vaccinated, 2nd day 150 numbers and 3rd day 130 people got vaccinated. We made sure that maximum people in both the villages got vaccinated. Also our college Staff and Students got vaccinated.

EVENT REPORT

TREE PLANTATION – (2018-2019)

Institution	East Point College of Engineering and Technology				
Department	Electronics and Communication Engineering				
Event Type /Theme	Eco Club Activity				
Event Title	Tree Plantation				
Date	14/08/2019				
Venue	Melina Jooganahalli Grama Panchayat(SSGhati)Doddaballapur				
Duration	1days/8Hrs	From:	14/08/2019	To:	14/08/2019
Program Description	<p>A plantation drive was organized by ECO CLUB unit of Department of Electronics and communication engineering at the premises of Melina Jooganahalli Grama Panchayat on 14th August 2019. Students of 6th sem of the Electronics and Communication Engineering branch under the guidance of HOD Dr.Yogesh G S actively participated in the drive. The student’s very enthusiastic and presented the plants to the residents of the gram panchayat. The residents were made aware that the more trees will diminish the problem of soil erosion. The teachers and students who participated in the event had a great fun time in pleasant sunny weather. The event was a huge success.</p>

EVENT REPORT

Awareness on Road Safety - Alert today, Alive Tomorrow.

Institution	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	Department of Mechanical Engineering				
Event Type / Theme	Awareness program				
Event Title	Awareness on Road Safety - Alert today, Alive Tomorrow.				
Date	12/01/2019				
Venue	Avalahalli Highway				
Duration	3 hrs.	From:	10:00 AM	To:	1:00 PM
Program Description	<p>National Service Scheme Unit has organized an awareness program on Road safety to the residents of Avalahalli. Department of Mechanical Engineering organized the event. Chief Guest for this event was Mr. Peter Francis, Secretary, EPGI, Bangalore, Dr. Prakash S. Principal EPCET. Road safety is a most common and important topic and has been added to various fields like education, social awareness etc, in to order to bring more awareness in the public especially among school and college students. Road safety is an issue that affects everyone in India. We all need to use the roads to get around- to school, to work, to the hospitals, to the shops, to the cinema. Most of us use the roads every day, as drivers, passengers, cyclists and pedestrians, and for many people driving is the main part of their job. It is essential therefore, to ensure that, as far as possible, we can all use the roads safely. The human and economic damage caused by road crashes is largely preventable.</p>

Venue	Chennakeshava High School Bidarahalli				
Duration	1 Day	From:	10 AM Onwards	To:	12:00PM
Program Description					

A Cleaning drive was organized by NSS unit of Department of Information Science Engineering at the premises of Chennakeshava High School Bidarahalli.

It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases.

Following this, students of 3rd sem of the Information Science Engineering branch under the guidance of Prof. Nanda Ashwin actively participated in the drive. The garbage was collected and disposed away. The plastics and used water bottles were also segregated. Students have encouraged community people to join in swachhta activity.

Undertaking cleanliness – “A drive towards clean India”

Event Report

Achieving Good Results in SSLC for Rural Students at Medahalli

	EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY				
Department	Basic Sciences				
Event Type / Theme	NSS activity for Rural Students at Medahalli				
Event Title	Achieving Good Results in SSLC for Rural Students at Medahalli				
Date	11/02/2019				
Venue	Medahalli Govt School				
Duration	5 days	From:	11/02/2019	To:	15/02/2019
Program Description					

Introduction

Medahalli, a rural area with limited access to educational resources, has traditionally faced challenges in achieving high academic performance in the Secondary School Leaving Certificate (SSLC) examinations. Recognizing the need for targeted intervention, a comprehensive program was implemented to improve SSLC results for students in this region. This report outlines the steps taken, the methodologies adopted, and the outcomes achieved through this initiative.

Program Implementation

- Needs Assessment and Baseline Survey** Before the program's inception, a detailed needs assessment was conducted to understand the specific challenges faced by students in Medahalli. This involved:
 - Conducting surveys and interviews with students, parents, and teachers.
 - Analysing past SSLC performance data to identify areas of weakness.
 - Evaluating the availability and quality of educational resources.
- Setting Up Resource Centres** To address the lack of study materials and conducive learning environments, resource centres were established at strategic locations within Medahalli. These centres were equipped with:
 - Textbooks and reference materials.
 - Computers with internet access for digital learning.
 - Study spaces with proper lighting and seating arrangements.
- Training and Capacity Building for Teachers** Teacher effectiveness was identified as a critical factor in student performance. Therefore, the program included:
 - Regular professional development workshops for teachers.
 - Training sessions on modern pedagogical techniques and the use of technology in teaching.
 - Peer learning groups for teachers to share best practices and support each other.
- Remedial Classes and Personalized Tutoring** Special focus was given to students who were lagging behind through:
 - After-school remedial classes covering core subjects like Mathematics, Science, and English.
 - One-on-one tutoring sessions for students needing extra help.
 - Utilization of retired teachers and community volunteers as tutors.
- Parental and Community Involvement** Engaging the community and parents was crucial for creating a supportive learning environment. Efforts included:
 - Regular parent-teacher meetings to discuss student progress and strategies to support learning at home.
 - Workshops for parents on how to create a positive study environment.
 - Community awareness programs highlighting the importance of education.
- Use of Technology and E-learning Tools** To supplement traditional learning methods, technology was integrated into the education process through:
 - Provision of tablets loaded with educational apps and resources.
 - Implementation of online learning platforms for interactive lessons and practice tests.
 - Regular technical support to help students utilize these tools effectively.
- Motivational and Counselling Support** Addressing the psychological well-being of students was a key component which involved:
 - Regular motivational talks and career guidance sessions.
 - Availability of counseling services to help students manage exam stress and personal issues.
 - Encouraging peer support groups.

to foster a collaborative

learning atmosphere. Outcomes and Impact The program has yielded significant improvements in SSLC results for students in Medahalli, evidenced by: • An increase in the overall pass percentage and number of students scoring high grades. • Enhanced confidence and motivation among students. • Improved teaching practices and greater community involvement in education. Conclusion The targeted intervention in Medahalli has demonstrated that with the right resources, training, and community support, rural students can achieve commendable results in their SSLC examinations. The success of this program serves as a model that can be replicated in other rural areas facing similar challenges, contributing to the broader goal of educational equity and excellence.

Report on Swachh Bharat Campaign Held at Primary Government School, Bidarahalli in November 2018 by East Point College of Engineering Students

Introduction

On November 2018, students from East Point College of Engineering conducted a Swachh Bharat campaign at the primary government school in Bidarahalli. This initiative was part of the nationwide Swachh Bharat Abhiyan, aimed at promoting cleanliness, hygiene, and sanitation. The involvement of engineering students brought a fresh perspective and youthful energy to the campaign, greatly benefiting the primary school and its students.

Objectives of the Campaign

1. **Promote Hygiene and Sanitation:** To educate primary school students about the importance of cleanliness.
2. **Improve School Environment:** To clean and enhance the school's premises, creating a healthier learning environment.
3. **Behavioral Change:** To encourage students to adopt and maintain clean habits.
4. **Community Engagement:** To involve the local community in sustaining cleanliness efforts.

Activities Conducted

The campaign included a variety of activities designed to engage the students and improve the school's sanitation:

1. **Awareness Sessions:** Engineering students conducted interactive sessions using charts, posters, and presentations to explain the importance of hygiene and sanitation. Topics covered included handwashing techniques, the importance of using toilets, and ways to keep their surroundings clean.
2. **Cleanliness Drive:** A comprehensive cleaning drive was organized where both engineering

Website Contents

students and primary school students participated in cleaning classrooms, toilets, and the schoolyard. They also cleared any litter around the school premises.

3. **Infrastructure Improvement:** Minor repairs and enhancements were made to the school's sanitation facilities. This included fixing broken toilets, ensuring the availability of clean water, and setting up additional handwashing stations.
4. **Plantation Drive:** To beautify the school environment and promote ecological awareness, a tree plantation drive was held. Students planted saplings around the school, learning about the importance of green spaces and how trees contribute to a cleaner environment.
5. **Competitions and Rewards:** To motivate the students, various competitions were held, such as drawing and essay writing on the theme of cleanliness. Winners were awarded prizes to encourage them to continue practicing and advocating for cleanliness.

Impact of the Campaign

1. **Increased Awareness:** The primary school students gained a better understanding of hygiene and sanitation. The interactive sessions and activities made the learning process engaging and effective.
2. **Behavioral Changes:** There was a noticeable improvement in the students' cleanliness habits.

Regular handwashing and proper use of toilets became more common among the students. 3.

Enhanced School Environment: The cleaning drive significantly improved the school's physical environment. The repaired facilities and cleaner surroundings created a more pleasant and conducive learning atmosphere.

4. **Community Involvement:** The campaign also attracted the attention of local community members, who participated in some activities and expressed a commitment to maintaining the cleanliness efforts initiated by the students.

Challenges Faced

1. **Resource Limitations:** The campaign faced some resource constraints, such as limited cleaning supplies and tools, which affected the scope of activities.
2. **Maintenance of Infrastructure:** Ensuring the long-term maintenance of the improved sanitation facilities remains a challenge.
3. **Sustaining Behavioral Changes:** Continuous efforts are needed to sustain the behavioral changes among students and ensure they maintain the cleanliness habits.

Recommendations

1. **Regular Follow-Up:** Conduct regular follow-up visits to ensure that the cleanliness and hygiene practices are maintained.
2. **Community Programs:** Involve the local community more actively in maintaining and improving the school environment.
3. **Additional Resources:** Seek additional resources and support from local authorities and NGOs to sustain and expand the campaign's impact.
4. **Ongoing Education:** Implement ongoing educational programs to reinforce the importance of hygiene and sanitation.

Conclusion

The Swachh Bharat campaign held at the primary government school in Bidarahalli by East Point College of Engineering students in November 2018 was a successful initiative. It not only improved the cleanliness and sanitation of the school but also educated and motivated the students to adopt and maintain good hygiene practices. The campaign's positive impact highlights the importance of involving educational institutions in community service and cleanliness drives, fostering a cleaner and healthier environment for future generations.
