

Event Report

Institution	East Point College of Engineering and Technology				
Department	Computer Science & Engineering				
Event Type / Theme Please Tick appropriate one (✓)	Community Service Project				
Event Title	“Community Service Project Demonstration- Literacy for All” - WEEK 7				
Date	18.12.2024	Time	09.30 am to 01.00pm		
Venue	Government Primary School, Bileshivale, Doddagubbi				
Duration	1 Day	From:	18.12.2024	To:	18.12.2024
Program Objective	The session was aimed at creating a community service for students that can be incredibly rewarding and impactful.				
<p>The community service projects conducted by our engineering college aimed to foster a sense of social responsibility among students, providing them with opportunities to contribute positively to society. This report highlights the various projects undertaken, their objectives, activities, outcomes</p> <p>Topics Covered</p> <p>1. Habitat of Living Organisms</p> <ul style="list-style-type: none"> • Aquatic Habitats: These are water-based environments where organisms live. They include: <ul style="list-style-type: none"> ➤ Freshwater Habitats: Lakes, rivers, ponds, and streams. ➤ Marine Habitats: Oceans, seas, and coral reefs. • Adaptations: <ul style="list-style-type: none"> ➤ Fish have gills for breathing underwater. ➤ Aquatic plants like water lilies have floating leaves to access sunlight. <p>2. Angles and Triangles</p> <ul style="list-style-type: none"> ➤ Acute Triangle: <ol style="list-style-type: none"> 1. Definition: A triangle where all three angles are less than 90 degrees. 2. Example: Triangle with angles 30°, 60°, and 90°. ➤ Right Triangle: <ol style="list-style-type: none"> 1. Definition: A triangle with one angle exactly equal to 90 degrees. 2. Example: Triangle with angles 90°, 45°, and 45°. ➤ Obtuse Triangle: <ol style="list-style-type: none"> 1. Definition: A triangle with one angle greater than 90 degrees. 2. Example: Triangle with angles 120°, 30°, and 30°. <p>Practical Activity: Measuring Angles with a Protractor</p> <p>Objective: To teach students how to accurately measure angles in different types of triangles using a protractor.</p> <p>3. Indian Constitution</p>					

Importance of Fundamental Rights: The Fundamental Rights, enshrined in Part III of the Constitution, are essential for safeguarding the rights and freedoms of individuals. Their importance is highlighted below:

- **Protection of Individual Rights:** Fundamental Rights protect the basic human rights of individuals against arbitrary actions by the state, ensuring personal freedom and dignity.
- **Promoting Equality:** They promote equality by prohibiting discrimination on various grounds, such as religion, race, caste, sex, or place of birth.
- **Ensuring Justice:** Fundamental Rights ensure access to justice by guaranteeing the right to legal remedies in case of violation of rights.
- **Strengthening Democracy:** By empowering citizens with rights like freedom of speech, assembly, and association, they strengthen the democratic fabric of the nation.
- **Social and Economic Rights:** Rights such as the right to education and the prohibition of exploitation address social and economic inequalities, fostering a more equitable society.

1. Names of the Resource Persons / Chief Guests / Guests of Honors / Other’s Mention	CSE Students – 5 th Sem Students	
2. Designation/s	Students	
3. Company’s Name / Associations	NA	
Total Number of Participants	25	
Total number of Participants in <i>Google</i> Meet	NA	
Total number of feedbacks received through Google forms from both Google meet and YouTube	NA	
Total Number of Views (First Day) in YouTube
