Program Objective	<p>The six-day Faculty Development Program (FDP) on DevOps was conducted entirely in offline mode to maximize hands-on learning and real-time interaction. Its primary purpose was to enhance educators' pedagogical and technical skills, equipping them to effectively teach emerging DevOps methodologies and tools. By focusing on both theory and practice, the program aimed to bridge the gap between academia and industry, preparing faculty to meet evolving demands in software development and deployment. The approach enabled immersive, collaborative learning through live demonstrations, coding labs, and group discussions. Overall, the FDP empowered educators to elevate their teaching strategies and align their curriculum to contemporary industry standards.</p>
