2. CAPGEMINI CSR Collaboration

2.1 About Capgemini CSR

Capgemini through its CSR initiative has partnered with EduBridge to transform and impact the lives of youth across the country by building their skill sets and mind-sets for a long and sustainable career. A large number of Youth from the low-income households would get access to very respectable jobs in one of the fastest growing sectors with a huge potential for growth. This would potentially result in transforming the lives of the entire household for generations to come. The trained youth become role models and influence the remaining society towards employment and building a career. This contributes to economic prosperity of the community and hence higher living standards for the community. The program works towards bridging the gap in the supply demand ecosystem by providing skilled and job-ready manpower, thus contributing to the Skill India Mission.

Upon successful completion of the training, participants are assisted with job placement through career counseling, resume building, and mock interviews. This initiative aims to empower young individuals from disadvantaged backgrounds by providing them with the necessary skills and support to secure meaningful employment opportunities.
