Institution	East Point College of Engineering and Technology				
Department	Computer Science & Engineering				
Event Type / Theme	DATA VISUALIZATION PROJECTS PRESENTATION				
Event Title	DATA VISUALIZATION IN POWERBI AND TABLEAU				
Date	13-12- 2025		Time		09:30 AM
Venue	CSE Lab				
Duration	6 hours	From:	09:30 AM	To:	3:30 PM
Program Objective	To strengthen and have a proper understanding of the data visualization tools like tableau and power bi and to work on it for complex projects.				

The Department of Computer Science and Engineering hosted The **Data Visualization Projects – A Poster Exhibition of Insights**.

It was conducted on **13th December 2025** in the CSE Department Labs (Centre of Excellence and Cyber Security Lab). The event was organized by the **Data Visualization Teams** with the objective of encouraging 3rd sem students to explore data visualization concepts beyond their academic syllabus and apply them to real-world datasets.

Core Objectives for the Data Visualization Projects

To introduce students to the fundamentals of data visualization and visual analytics.

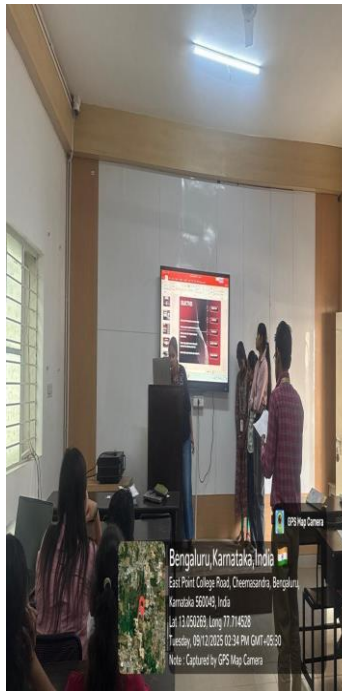

To encourage the use of charts and graphs for effective data interpretation.

To provide hands-on experience in transforming datasets into meaningful visual insights. To develop problem-solving, analytical, and presentation skills.

To promote peer learning and interactive discussion without competitive pressure.

Conclusion:

The **Data Visualization Projects – Poster Exhibition of Insights** successfully achieved its objectives by providing students with an engaging platform to explore and apply data visualization techniques. The event enhanced students' analytical thinking, creativity, and confidence in presenting data-driven insights. It encouraged experiential learning and laid a strong foundation for future project-based activities related to data analytics and visualization within the department.
