Program Objective	To strengthen departmental community bonds and cultural literacy through a well-organized program of educational insights, traditional rituals, and inclusive cultural participation.		

The Department of Computer Science and Engineering hosted a joyous Durga Puja Celebration, bringing together students, faculty, and staff, all of whom attended in traditional attire. The event, organized by "Aaradhana," began with an educational session on the festival's significance, followed by traditional rituals and cultural performances in a beautifully decorated setting. The celebration saw active participation and concluded successfully.

Core Objectives for the Durga Puja Celebration

- Foster Departmental Synergy: To strengthen interpersonal relationships and "community bonds" among colleagues through shared cultural experiences.

- Enhance Cultural Literacy: To provide "context" and background through an educational session, ensuring that all attendees (regardless of their background) understood the significance of the rituals.

- Promote Inclusive Participation: To create an environment where everyone felt "meaningfully engaged" by offering a mix of observational rituals and active cultural activities.

- Preserve Traditional Authenticity: To honor the spiritual and cultural roots of Durga Puja by executing "traditional rituals" accurately.

- Demonstrate Organizational Excellence: To manage the logistics, timing, and flow of the event so seamlessly that it reflects the "dedication and successful organization" of the team.

Conclusion:

The Durga Puja Celebration was a successful event that reinforced community bonds within the department. By beginning with an educational session to provide context, followed by traditional rituals and cultural participation, the celebration was both meaningful and engaging for all who attended. The entire celebration

was a testament to the dedication and successful organization of the pooja.
