<b>Date</b>	13/02/2026	13/02/2026	Time:	11:00 AM to 01:00 PM	
<b>Venue</b>	S M Jayaram Memorial hall , EPCET				
<b>Duration</b>	2 Hrs	From:	13/02/2026	To:	13/02/2026
<b>Program Objective</b>	The main objective of an Innovation and Design Thinking workshop is to <b>train participants to solve real problems creatively using a structured, user-focused approach.</b>				
<p>The workshop aimed to introduce students to the concept of innovation and the importance of design thinking in solving real-world problems. The session was conducted by <b>Dr. Pushpa Lumina</b>, Assistant Professor , Department of Civil Engineering, REVA University, who served as the resource person for the program. She explained the fundamentals of innovation and emphasized how creative thinking and a user-centered approach can help develop effective solutions to everyday challenges. The session began with an introduction to the concept of design thinking and its significance in modern education and industry.</p> <p>During the workshop, the resource person discussed the <b>key stages of the design thinking process</b>, including empathizing with users, defining problems, ideating solutions, developing prototypes, and testing ideas. Practical examples and simple activities were used to help students understand how innovative ideas can be generated and applied in real-life situations.</p> <p>Students actively participated in discussions and gained insights into how innovative thinking can contribute to problem-solving and entrepreneurship. The workshop successfully created awareness among EPCET students about the importance of innovation and design thinking. It motivated students to think creatively, identify problems, and develop innovative solutions for the future.</p>
