

CURRICULUM FEEDBACK ACTION TAKEN REPORT

Academic Year: 2025-26

Action Taken Based on the Analysis of Students' and Faculty Feedback on the Curriculum for the

The department regularly collects feedback from students regarding the curriculum. Students are asked various questions related to the subjects they have studied, including the adequacy of course credits, the depth of course content, and the relevance of the curriculum to current industry standards.

The Board of Studies (BoS) and Department Advisory Board comprising experts from industry and academia, alumni, student representatives, and faculty members, reviewed the feedback and took appropriate actions to enhance the curriculum.

Sl. No.	Recommendations	Action Taken
1	The Department Advisory Board, Board of Studies, and faculty recommended upgrading the B.E. Artificial Intelligence and Data Science curriculum to align with current industry needs by incorporating emerging technologies, industry-relevant tools, practical learning, and certification-oriented courses to enhance graduate employability.	The curriculum was revised by introducing emerging AI and Data Science topics, enhancing hands-on laboratory sessions, incorporating industry-oriented projects, internships, and certification-based learning to meet current industry requirements.
2	The experts recommended incorporating real-time case studies and practical scenarios into the curriculum to better align with current industry standards and requirements.	Action Taken: The course content for Data Analytics with R (Theory, Laboratory, and Skill Lab) was revised accordingly, and the recommendations have been incorporated into the 4th Semester curriculum.
3	Incorporate more practical and industry-oriented case studies to strengthen application-based learning.	initiated interdisciplinary mini-projects and introduced skill-based courses with industry-oriented case studies to enhance practical learning.
4	Students requested more choice in the internal question paper.	Action Taken: The internal question paper pattern was revised to provide greater flexibility by requiring students to answer 5 out of 6 questions .
