

Additional Information:

IRINS (Indian Research Information Network System) has integrated academic identity such as Scopus ID, Research ID, ORCID ID, Google Scholar ID, and Microsoft Academic ID to imbibe the scholarly publications from various sources. The EPCET IRINS Portal was launched in June 2022 (<https://epcet.irins.org/>) and the peer reviewed journals of faculty members are listed in this website. The Institute library is a member of NDLI & NDLI club, IISc and IIM Bengaluru Library. These library facilities can be utilized by the college staff and students.

Website: The Institute library data is uploaded on the website <https://epcet.ac.in/> which includes the library timings (8.30AM to 8.00PM) and updated library details. Students can apply for library membership through the Institution website.

WEB OPAC Book Search: We use **Easylib Web 6.4a web version**, one of the most advanced automation systems for our library. It is accessible 24x7 <http://epcet.easylib.net> both inside and outside campus. Easylib provides customized website for the library. The website is constantly updated with information that is helpful to the students. To make it easy for new students, we also update our library website up to date with preset searches, announcements, useful links, display of new arrivals, photo gallery, library timings, library staff details, library policies along with library contact information.

Other Activities: The Institute Library committee meeting will be conducted once in a semester for taking suggestions from the members for continuous improvement of services and facility of the library. “Library Best User Award” will be issued to the student for the Maximum use of library once in a year. Semester wise Users’ feedback will be taken for the betterment of the library services. Book exhibitions are conducted and National Librarian’s Day is celebrated on 12th August every year. Regular Library awareness programs on “Usage of library” are conducted for students and staff members by the librarian as well as the external experts as and when required. The 22nd Dewey decimal classification is being used for preparation of Call numbers.

Orientation of library: Awareness of library services will be conducted during orientation programs for the firstyear students of all programs.
